Considerations

Very plush feel, high in comfort.
Ventilated core combined with airfibre increasing air-flow to regulate temperature.
Suits most users.

Suitable for pain management and alignment
Contour design increasing pressure redistribution to head and neck.
Gel insert assists with temperature regulation.

Suitable for pain management and pressure redistribution
Suits front, back and side sleepers.
Gel insert assists with temperature regulation

Low profile design, for narrow shoulder widths. Suitable for petite and younger users
Curved and angled front design increasing support for lower neck.
